

NEW THINKING. NEW POSSIBILITIES.

People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.

NEW THINKING.
NEW POSSIBILITIES.

H-1

CARGO VAN **PLENTY OF SPACE AND STILL ROOM FOR MORE**

There's no denying the messages sent out by the muscular, purposeful looks of the van version. In the busy city and out in the boondocks, Hyundai's latest van is the lifeblood of commerce. Packages to collect here and to deliver there, always against the clock, always with the utmost reliability. With a spacious cargo area, low running costs and high levels of refinement, this is the vehicle you told us you need. The H-1. A trusty business partner.

THE VAN WITH IT ALL

The two-or three-seater H-1 is not just a sensible business tool. While it is primarily a practical, hard-working load-carrier, those seated up-front will appreciate the high degree of comfort and convenience that feature in a beautifully appointed passenger cabin. Behind, the cargo compartment is a giant box more than 2.375 metres long, 1.62 metres wide and 1.34 metres high. For added convenience, there are sliding cargo doors each side, double swing doors at the rear, a flat floor and a choice of solid or mesh bulkhead. Let's get to work!

VERSATILITY IS THE LATEST FASHION

The latest styles spill on to the street in the five- or six-seat versions, great-looking vehicles created for van buyers who regularly need extra passenger space. At the same time, the layout means there is still plenty of room in the back for cargo deliveries, professional working equipment, sports gear or holiday luggage. Cabin comfort and refinement of the type normally associated with passenger cars are complemented by full length side windows. The combination makes this H-1 the right choice for a variety of work or leisure purposes.

WAGON PEOPLE ON THE MOVE... IN STYLE

The H-1 is also the answer when delivering people takes priority over packages. The eight-seater wagon is at home in a variety of business and leisure roles – as a hotel shuttle, for tourists on sight-seeing trips or for taking sports club members (and all their gear) to the big event. The strong, modern exterior is complemented by a comfortable, convenient and spacious interior. And because it's a Hyundai, reliability and economy are part of the DNA.

THE JOURNEY OF DISCOVERY BEGINS HERE

The scene is typical of modern living. The H-1 effortlessly whisks a group of colleagues – or perhaps old friends – from the city to the airport. The travel arrangements are in order, bags are packed, and the excited chatter is about the developments the next few days will bring. The eight-seat wagon is in its element in these circumstances, so easy to get into and out of. It has all the space required by the travellers and their luggage and a superb interior enhanced by flush-fitting side windows for great visibility. In fact, every element of the up-to-the-moment design is like an assurance the journey will be a success.

THE WAGON THAT'S JUST LIKE A CAR

Hyundai's design team has developed an interior equal of those in most of today's high class passenger cars. You only have to look at features like the satin-finish fascia, the gearshift control on the central console and the switchgear built into the driver's door pull and dashboard to appreciate the achievements of the designers, engineers and technicians. The design, feel, fit and finish of these and other components are superb. They symbolise the Hyundai philosophy of aiming to be the best.

C. Power window controls

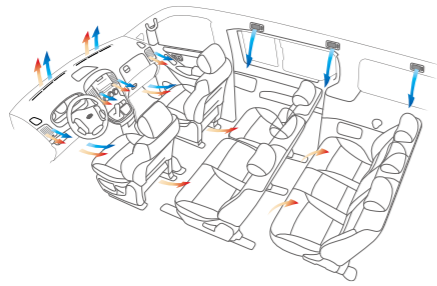

B. Air conditioning system

D. Multi switch panel

VARIETY IS THE SPICE OF LIFE

Comfortable and convenient, spacious and flexible, stylish and luxurious – welcome to the eight-seat H-1. In this quiet cocoon of sanity, the driver and passengers lack nothing of any substance. The general sense of roominess is aided by having the gear lever located on the central console, thus helping to create a full-length floor that is flat and safe.

No need to get hot and bothered

The powerful air conditioning system has been re-engineered in order to incorporate roof-mounted air vents each side for the added comfort of passengers seated in the rear.

Sliding seat

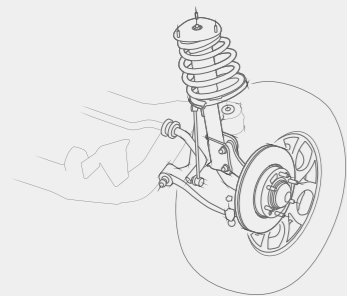

Back seat pocket

DELIVERING WHAT MATTERS: PERFORMANCE, REFINEMENT AND QUALITY

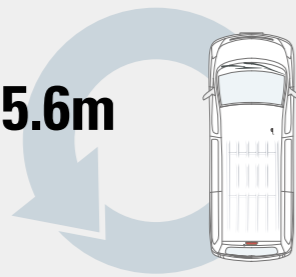

The use of a thoroughly modern diesel engine gives the H-1 a lively performance, some excellent fuel economy returns and low emissions levels. The vehicle features a five-speed manual transmission and, for optimum weight distribution and dynamic balance, a front-mounted engine powering the rear wheels. It has a structurally robust and reliable body/chassis unit, suspension that can cope with almost everything, electronics to control stability and braking, and air bags for the front seat occupants.

Comfort zone

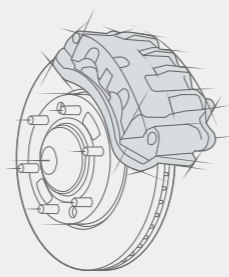

The suspension is a remarkably flexible design. It is sufficiently robust to cope when the vehicle is fully laden, yet remains compliant enough to provide the occupants with a comfortable ride whatever the load – or road.

5.6m

Manoeuvres made easy

Tight spaces in city centres or on country backroads are no problem for the H-1 driver. Despite having a length of more than five metres, the vehicle's turning circle is no more than 5.6 metres.

Disc brakes

Large and powerful disc brakes (16") are available on the rear wheels as well as those on the front. They provide the high level of stopping performance required when a wagon or van is fully laden.

A. Engine

A2-2.5 CRDi (WGT)

100kW(136ps) @3,800rpm,
343Nm(35kg.m) @1,500~2,500rpm
85kW(116ps) @3,800rpm,
343Nm(35kg.m) @1,500~2,250rpm

A2-2.5 CRDi (VGT)

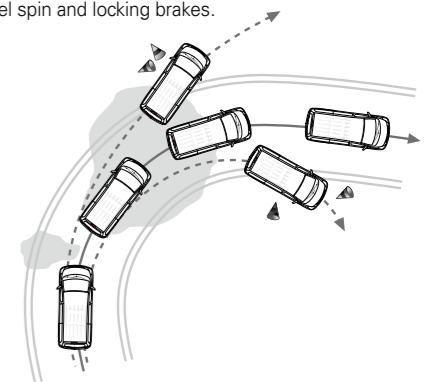

125kW(170ps) @3,600rpm,
441Nm(45kg.m) @2,000~2,250rpm

B. Dual airbags

The driver and front seat passenger in the wagon can be reassured by the fitment of twin air bags. In a serious accident, the safety devices instantly inflate to help protect the seat occupants from injury.

Safe at speed

The H-1 stays true around tricky bends and under braking thanks to its electronic stability programme (ESP) and anti-lock brakes (ABS). These sophisticated systems overcome tyre slip, wheel spin and locking brakes.

MORE H-1

Head lamps

The characteristic head lamp shape, gracefully flared into the bodywork, marks the H-1 as a member of the Hyundai family.

Chrome grille

A touch of class is added in most markets with an attractive chrome finish to the now traditional Hyundai grille.

Rear combination lamps

The lamp clusters wrap around the sides and group together the rear lights, reversing lights, direction indicators and reflectors.

Fog lamps

The wagon versions feature a pair of fog lamps, which are neatly blended into the lower section of the front bumper.

Sun visor

The sun visor on the driver's side doubles as a handy pocket for toll tickets and delivery documents.

Sunglass case / map light

A console in the roof serves as a drop-down container for a pair of sunglasses and some map-reading lights.

PA710R audio

The Top choice when it comes to H-1 audio system - a radio, CD player, MP3 player and USB/AUX.

H800 audio

A favourite when it comes to audio system - a high quality radio and USB/AUX.

Three-way washer jets

There are three high pressure nozzles available to spray washer fluid on to the windshield when it becomes dirty.

Micro antenna

Good radio reception in all areas is virtually certain thanks to the fitment as standard of a roof-mounted antenna.

Tilting doors

The hinge mountings allow the two front doors to open at a distinct angle in order to help the front seat occupants to get into and out of the vehicle more easily.

Side garnish

The top model wagons are available with this attractive side garnish between the wheels.

ECM

The interior mirror of the wagon is an electronic chromatic type that automatically dips when dazzled by a following vehicle's headlamp main beams.

Cabin lamp

The cabin can be illuminated by a choice of six ambient colours thanks to the roof-mounted LED-type interior lamp.

Dual door pocket

For all the magazines, maps and paperwork that are essential on journeys, the front doors feature a clever combination of dual pockets.

Cup holders

The console between the driver and front seat passenger is available with a retractable holder for a couple of bottles or cups.

HMSL

The high-mounted stop light at the rear comprises a series of LEDs, or light-emitting diodes, for safety purposes.

Flush glass

The multi-seat wagon versions of the H-1 are available with flush-fitting side windows for improved aesthetics and quietness.

Back-up warning system

Sensors in the bumpers sound an audible alarm if they detect the vehicle is being reversed into objects hidden from the driver.

Power outlet

The central console of the wagon has a 12v/120w power outlet suitable for re-charging cell phones, laptops and so on.

Rear seat air control

Twin rotary knobs control the temperature and fan speed for passengers seated in the rear of the wagon.

Keyless entry & burglar alarm

The vehicle's doors can be locked and unlocked from a distance thanks to an electronic sender built into the ignition key.

6.5J x 16" alloy wheels

Wheel sizes on the latest H-1 have gone up. These light alloy wheels are an option to the standard steel wheel in most countries.

6.5J x 16" steel wheels

These durable steel wheels are standard equipment across most of the range. Increased wheel sizes help to reduce running costs.
